Brooke Hamilton Name Plates, Inc.

Dear Brooke,

I am writing this letter today to express my deepest appreciation for all your company has done for Vacuworx Global.

As you know we recently changed our logo as part of our new global outreach program.

Although we already had a vendor for all our decals I sought your company out after a brief meeting with you at OSU Stillwater. After meeting with you I determined that NPI, Inc. could not only take care of our immediate needs, but you also had a lot more potential to "take us to the next level" which is where we wanted to go in the market.

As you know from the time we started discussing making your company our "Primary Vendor" For all decals, and signage I have had not only production needs, but also many "Special Projects" as well.

I must say how much I appreciate how your staff has come to my rescue in times of crisis.

Again I want to say thank you for being such a great Vendor Partner and helping me to keep all our decals and signage rolling, and no lost time for production.

Ray Plank, SPSM

Director of Global Supply Chain

Vacuworx Global
